Outbreak Information as of 1/6/2021

This information is provided for public awareness purposes.

For further public detail please refer to the CDPHE Outbreak Data at:

<https://covid19.colorado.gov/covid19-outbreak-data>

Active Outbreaks: (listed alphabetically)

As defined by CDPHE, an active outbreak is defined as a minimum of 2 cases from a facility or an event

A case can only belong to one outbreak at a time; in the event a case works and goes to school and the school was the first outbreak, the case will only belong to the school.

An outbreak remains active until 28 days have passed since last case's symptom onset.
