## **CR 3 and CR 1 Road Construction Information**

Beginning Thursday July 15, 2021, thru approximately July 30, 2021, road construction activities will be performed on CR 3 from milepoint .6 thru milepoint 1.1.

Beginning on or about July 26, 2021 thru approximately August 12, 2021, road construction activities will be performed on CR 1 from milepoint 5.50 thru 7.43.

The work will require one lane closures thru which flagging operations will be taking place. We would ask that you please try to use an alternate route if possible. Be prepared for and expect to encounter delays due to the flagging operations.

We ask that you please use extra caution while driving through the work areas. Please be advised that the one lane flagging operations are necessary for the protection of the traveling public as well as for the safety of the workers present.

The delays will be kept to the minimum time needed to accomplish the work.

Thank you for your patience and cooperation while we work to improve the Teller County road system.
